

Purchaser Notification
Limited Use Label License
CleanColi™ System

The CleanColi™ System is a recombinant expression platform based on strains of *Escherichia coli* (*E. coli*) that are engineered to minimize human endotoxin signaling. Patents, strains (including derivatives and progeny) and other materials related to the CleanColi™ System and licenses for its use to express and/or clone products are owned by Research Corporation Technologies, Inc. ("RCT"), Tucson, Arizona. Lucigen Corporation ("Lucigen") has a license from RCT to sell the CleanColi™ System and related information (collectively, "CleanColi™ Kits") to third-parties for non-commercial research purposes only. A separate license is required for any commercial use, including use of the CleanColi™ Kit for research purposes in product development, product production and/or product improvement. Before using the CleanColi™ Kit, please read the license agreement described below. If you do not agree to be bound by its terms, contact Lucigen within 10 days for authorization to return the unused CleanColi™ Kit to receive a full refund. If you do agree to the terms, please visit <http://cleancoli.com/registration/> and enter the requested registration information.

Lucigen grants you a non-exclusive license to use the enclosed CleanColi™ Kit for non-commercial research or evaluation purposes only. The CleanColi™ Kit is being transferred to you in furtherance of, and reliance on, such limited use license. You may not conduct any reverse engineering of the CleanColi™ System or use the CleanColi™ Kit for any Commercial Purpose (as defined below) without a license for such purpose from RCT, Tucson, Arizona. "Commercial Purpose" means: any use of the CleanColi™ Kit or CleanColi™ Products (as defined below) in a Commercial Product (as defined below); any use of the CleanColi™ Kit or CleanColi™ Products in the manufacture of a Commercial Product; any use of the CleanColi™ Kit or CleanColi™ Products in the performance of services for third parties; any sale or other commercialization of CleanColi™ Products; any use of the CleanColi™ Kit or CleanColi™ Products directly in the clinical development, improvement, or GMP manufacture of a Commercial Product; or the filing or preparation of any patent application claiming or describing, in whole or in part, the CleanColi™ System, any CleanColi™ Products, or any Commercial Products. "CleanColi™ Products" means products (including, but not limited to, proteins, peptides and DNA plasmids) expressed with the use of the CleanColi™ Kit, or with the use of any CleanColi™ strains (including derivatives and progeny). "Commercial Product" means any product intended for sale or commercial use. **Commercial entities and non-profit entities engaged in commercial activities may conduct their research and evaluation for twelve (12) months at which time this license automatically terminates.** Commercial entities and non-profit entities engaged in commercial activities will be contacted by RCT during the evaluation period regarding their desire for a commercial license.

Access to the CleanColi™ Kit and CleanColi™ strains must be limited solely to those officers, employees and students of your entity who need access to perform the above-described research or evaluation. You must inform each such officer, employee and student of the provisions of this license agreement and require them to agree, in writing, to be bound by the provisions of this license agreement. You may not distribute the CleanColi™ Kit or any CleanColi™ strain contained herein or in the CleanColi™ Kit (or any derivative or progeny thereof), to others, even those within your own entity. You may only transfer modified, altered, or original CleanColi™ strains or material from the CleanColi™ Kit to a third party following written notification of, and written approval from, Lucigen and RCT so that the recipient can be properly licensed. You may not assign, sublicense, rent, lease or otherwise transfer this license agreement or any of the rights or obligations hereunder, except as expressly permitted by Lucigen and RCT.

This license agreement is effective until terminated. You may terminate it at any time by destroying all CleanColi™ strains (including derivatives and progeny) and CleanColi™ Products in your control. It will also terminate automatically if you fail to comply with the terms and conditions of the license agreement. You shall, upon termination of the license agreement, destroy all CleanColi™ strains and CleanColi™ Products in your control, and so notify Lucigen in writing. Information about commercial licenses may be obtained from Research Corporation Technologies, Inc. at the following address:
